ABOUT ME

I'm an Informatics Engineering student at Lancang Kuning University in Pekanbaru, Indonesia, passionate about web development. With skills in HTML, CSS, JavaScript, Laravel, and React JS, I've worked on projects like event management systems and e-commerce platforms. I've also gained hands-on experience in hardware maintenance and customer service as a freelance technician and university labor assistant. Continuously learning through workshops and certifications, I'm adept at communication, teamwork, and time management. Outside of academics, I enjoy music, gaming, and drawing. I'm driven to contribute to innovative projects and teams, always seeking growth opportunities.
